

Seychelles Marine Spatial Planning Initiative

14-15 May 2014

Workshop #2

Wrap Up

- Stakeholder engagement and representation
 - Absence of the tuna industry which represents 90% of the export economy
- Coordination with other similar processes (SDSS, Protected areas, Blue Economy, etc.)
- implementing zones and enforcement
- How to deal with areas of overlap/conflict. Setting priorities for zoning?
- Scientific expertise in the technical advisory committee. Composition? We want suggestions for additional expertise

Next Steps

- Formation of Steering Committee and Technical Working groups
 - Invitations will be sent out to nominate someone to represent sectors/organizations
 - Refine objectives, setting targets
- Send comments on Terms of Reference, MSP Summary document, Vision statements and MSP draft SMART objectives by 29 May 2014 5 PM.
Send comments to Iris: carolusiris@yahoo.co.uk
- Will send out the "scope of work and guidelines" for feedback
- Compiling the data catalogue. List of data compiled will be sent early June.
- Identify and develop decision support tools
- Generate DRAFT scenarios for management objectives
- Possibility of designing a website for the MSP process
- Next workshop - Aug: review DRAFT scenarios and incorporate comments for revisions (iterative process)

Thank You!!!
